Official Product Request Form

Dear Store Manager,

I would like to request that your store offer the Baker's Delight 'Vegan Friendly' range. Back in September 2019 your store participated in a national launch of the 'Vegan Friendly Savoury Bites', which I loved! Since then, stores all around Australia have been experimenting with plant-based menu items using BioCheese. Some customers are enjoying 'Vegan Friendly Cheesymite Scrolls', 'Vegan Friendly Mediterranean and Margherita Pizzas' and 'Vegan Friendly Cheese & Tomato Rolls'. Simply ordering one extra ingredient into your store would cater to so many more dietary requirements.

BioCheese is the first-mover and market leader in plant-based cheese in Australia. Voted CHOICE's favourite vegan cheese for taste, functionality and price, this product is sure to be a hit across your menu items.

Please contact your local distributor for more information on the product and how you can order some. Please see product request details below.
